## Degrees

A.S. Alcohol and Other Drug Studies

## Certificate of Achievement

Alcohol and Other Drug Studies

### ALCOHOL AND OTHER DRUGS STUDIES ASSOCIATE OF SCIENCE

The Alcohol and Other Drug Studies (AODS) major addresses a wide range of issues in the field of substance use and abuse through its degree and certificate course work. Students vary from recent high school graduates to working professionals with advanced college degrees. Students are able to apply and integrate their academic learning through required practicum experiences in various public and private agencies, institutions and businesses. The AODS Program exceeds the minimal standards for AODS Programs established by the federal Substance Abuse and Mental Health Services Administration. These standards were identified by State of California legislation as meeting the educational requirements for counselor certification. Degree and certificate completers qualify to apply for certification through a variety of state-approved certification boards. Completion of the Associate of Science degree will assist students in obtaining entry-level employment, job promotion/salary increases or transfer to a four-year college or university. As with all programs, students who intend to transfer to a four-year institution should research the transfer institution's requirements and plan to complete the CSU GE Breadth pattern or IGETC GE pattern.

#### Required Courses - Major:

		Units
AOD 151	Alcohol and Other Drugs: Overview	3
AOD 153	Physiology and Pharmacology of Alcohol and Other Drugs	3
